COVID-19 VACCINES NOW AVAILABLE

Worried About COVID-19?

CCHC has implemented cleaning and sanitizing measures to keep all of our patients safe during their visit.

If you are not comfortable coming into our office, we also offer convenient telephone visits and video visits with your provider.

We also provide COVID testing. If you have been exposed or are experiencing symptoms and want to be tested, call us to schedule your test.

Interested in being vaccinated? Currently, we are immunizing individuals who meet eligibility requirements.

To receive COVID vaccination, call us today to schedule your visit:

[818.630.6100](tel:818.630.6100)

Fraud Alert: COVID-19 Scams

The US Department of Health and Human Services Office of Inspector General is alerting the public about fraud schemes related to COVID-19.

Scammers are using telemarketing calls, text messages, social media platforms, and door-to-door visits to perpetrate COVID-19 related scams. After you get your COVID-19 vaccine, keep your vaccination card safe — scammers are using the COVID-19 pandemic to try to steal your personal information.

Don't share a photo of your COVID-19 vaccination card online or on social media.

Scammers can use content you post, like your date of birth, health care details, or other personal information to steal your identity.

If you suspect COVID-19 health care fraud, call [800-HHS-TIPS](tel:800-HHS-TIPS) ([800-447-8477](tel:800-447-8477)).

Congratulations CCHC! 2021 Family Clinical Champion

We are pleased to announce that CCHC has received the 2021 Family Planning Clinic Champion award by Essential Access Health.

Out of nearly 50 Title X family planning providers in California, CCHC was chosen for its commitment to provide quality care during the pandemic.

CCHC quickly transitioned from in-person to telehealth visits, trained staff on the critical elements of telehealth service delivery, staff generously provided support across departments and health education continued through virtual platforms ensuring access to all.

Together we made this happen!

Happy Mother's Day

HAPPY MOTHER'S DAY FROM

The
**AFFORDABLE
CARE ACT**

*Being a mom isn't
a pre-existing condition*

Prior to the passage of the Affordable Care Act, insurance companies could deny coverage for women with pre-existing conditions like breast cancer or pregnancy, and women could be charged higher premiums simply because of their gender.

Starting in 2014, it will be illegal to deny coverage to anyone with a pre-existing condition, or charge women more than men for health insurance.

20.4 million women with private health insurance gained expanded preventive services with no cost-sharing in 2011.	24.7 million women enrolled in Medicare received preventive services without cost-sharing in 2011.	1.1 million women between ages 19 and 25 who would have been uninsured have coverage under their parent's health insurance plan.
